

M e m o r a n d u m

Date: April 28, 2010

To: Counterterrorism and Threat Awareness Section
Attention: Chief D. S. MacGregor

From: DEPARTMENT OF CALIFORNIA HIGHWAY PATROL
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.A07146.010

Subject: 2010 COMMAND PROPERTY INSPECTION REPORT

State Administrative Manual (SAM) Section 8652 requires Departments to conduct a physical count of all state owned property and reconcile the count with accounting records at least once every three years. Departmental records indicate the last command inventory by the Counterterrorism and Threat Awareness Section was conducted on May 20, 2009. In order to provide independent verification and reasonable assurance to the Office of the Commissioner that the California Highway Patrol (CHP) inventory records are complete and accurate, your command was selected for a property inspection.

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on March 25, 2010. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 149 items (a). The statistically-valid sample at a 95 percent confidence level \pm 5 percent error rate provided a total stratified sample size of 46 items when rounded up to the next whole number (d).

Safety, Service, and Security

Counterterrorism and Threat Awareness Section

Page 2

April 28, 2010

	Population Size	Percentage of Total	Calculated Sample Size	Predetermined List Sample Size
	(a)	(b)	(c)	(d)
ICU Decals	70	46.98%	20.67	21
Telecommunications	48	32.21%	14.17	15
Fleet	3	2.01%	0.88	1
Weapons	28	18.79%	8.27	9
Total	149			46

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, 37 of the 46 items were located. Three items were transferred out of the command; two items (Control Panel plus Power Supply and Hand-Held Radio) were previously reported as missing; and four items were added to the command inventory in error. However, the command contacted the OPI prior to the scheduled property inspection day to correct the location code error of these four items. Furthermore, four of the 37 items were assigned to off-site locations and photographs were received by the Property Inspector for inventory accountability; thus, accounted for and not recorded as a discrepancy. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

When comparing equipment assigned to the command to the OPI inventory lists, 15 of the 17 items reconciled. Two items were listed on other commands inventory; however, the command had CHP 266, Credit Memo – Equipment, transfer documents on file. The property inspection results of equipment located at the command to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through your respective Division by July 28, 2010.

Furthermore, in accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the CHP's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

SUPPORTING DOCUMENTATION

M e m o r a n d u m

Date: March 8, 2010

To: Assistant Commissioner, Field

From: DEPARTMENT OF CALIFORNIA HIGHWAY PATROL
State Security Division

File No.: 080.A13507.2010 1 13

Subject: LOSS OF STATE-OWNED EQUIPMENT

On March 4, 2009, the Counterterrorism and Threat Awareness (CTTA) Section notified the State Security Division (SSD) of the following missing/obsolete equipment:

- Schlage/Nexsentry Electronics model 804S card reader/power supply unit with serial number 351030094 and CHP asset number 133727.
- Schlage/Nexsentry Electronics model 804S card reader/power supply unit with serial number 351030095 and CHP asset number 119551.

CTTA Section advises these items, which were accounted for in the May 2009 inventory, were components of a deactivated security system at the former Enforcement Services Division, located at 444 North 3rd Street. When the building was vacated and the lease terminated in December 2009, these items were inadvertently left behind. The attached memo from CTTA Section outlines the details of the incident and provides a copy of the stolen report # 201000268.

State Security Division concludes the missing/obsolete equipment does not meet the conditions constituting cause for reimbursement as outline in HPM 11.2, Materials Management, Chapter 16, Lost, Stolen, Damaged, or Destroyed State-Owned Equipment or Property/Reporting of Crimes on State-Owned or State-Leased Property, paragraph 9. As a result, we are requesting your approval to remove the above item from the inventory assigned to the Counterterrorism and Threat Awareness Section (081).

If you have any questions please contact me or Assistant Chief John Rolin at (916) 843-3230.

D. S. MACGREGOR, Chief

M e m o r a n d u m

Date: March 12, 2010

To: State Security Division

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Counterterrorism and Threat Awareness Section

File No.: 081.012552

Subject: LOSS OF STATE-OWNED EQUIPMENT

On February 8, 2010, the Counterterrorism and Threat Awareness (CTTA) Section became aware of the following missing obsolete equipment.

- Schlage/Nexsentry Electronics model #804S card reader/power supply unit with serial #351030094 and CHP asset number 133727.
- Schlage/Nexsentry Electronics model #804S card reader/power supply unit with serial #351030095 and CHP asset number 119551.

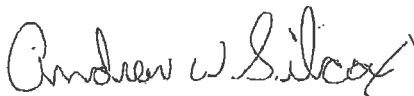

The items were components of a deactivated security system at the former Enforcement Services Division (ESD) located at 444 N. 3rd Street in Sacramento. They were last accounted for in May of 2009 during the annual inventory. It was noted on the inventory that the items were last located in the ESD motor-pool. Officer Riffin, #15367, who conducted that inventory, advised that the items were electronic components mounted to a loose piece of plywood and were stored against a wall in the motor-pool. When the building was vacated and the lease was terminated by Facilities Section in December of 2009, the inactive components were inadvertently left behind and were not turned in as obsolete equipment on a credit memo. A search of the now vacant facility in early February 2010 failed to locate the missing items, but did result in the recover of two other obsolete assets which were similar to the missing items. These items were removed and turned into Supply Services on a CHP 266 – Credit Memo, as surplus equipment. Although the lost items were listed on the Property Record Inventory Report with a dollar value of \$7039.78 each, they were obsolete components of an inactive security system that was upgraded in 2003/2004 and were never removed from CTTA Sections inventory. I contacted Stanley Security Solutions, who upgraded and serviced the system at 444 N. 3rd Street. I spoke with the Service Manager, J. D Kimerer, who advised me that the system in question was totally obsolete, and was no longer manufactured or sold. He advised that since access cards were no longer manufactured for the old analog card readers which the system powered; its value was that of scrap. Inquiries were made with Commercial Vehicle Section to see if the items could be located on their CHP 266- Credit Memos, without success. Inquiries were also made with Facilities Section, Supply Services and the Inventory Control Unit in an attempt to locate the items without success.

Counterterrorism and Threat Awareness Section
March 4, 2010

It is my opinion that the items were discarded as trash when Enforcement Services Division vacated the property at 444 N 3rd Street and that value of the items was negligible due to the obsolete nature of the electronic components.

The equipment has been entered into the Automated Property System as lost/missing equipment and an investigation report was prepared and filed with Capitol Protection Section (report # 201000268). Upon review I request that the above mentioned items be removed from the CTTA Section inventory list and that a STD 152 - Property Survey Report, be prepared.

If there are any questions, please feel free to contact me at (916) 843-3244.

A. SILCOX, Sergeant
Supervisor

Memorandum

Date: June 2, 2009

To: Assistant Commissioner, Field

From: DEPARTMENT OF CALIFORNIA HIGHWAY PATROL
State Security Division

File No.: 081.015340

Subject: LOSS OF STATE-OWNED EQUIPMENT

 **COPY**

On January 22, 2009, the Counterterrorism and Threat Awareness Section (CTTA) Section became aware of the following lost/stolen equipment:

- Motorola HT-1000 mobile extender with serial number 402AWY1119Z and CHP tag number R-64359/SP5359.
- Motorola MT-2000 portable radio with serial number 355AXE0988X and CHP tag number R-69867/SQ2918.

The employee is assigned full-time to a Federal Bureau of Investigation task force and has an outstanding work history. The employee followed normal practices and procedures for storage of his equipment and accounted for all equipment during the annual inventory of equipment on April 21, 2008. Subsequently, the employee replaced a receptacle within his trunk and noticed the above mentioned equipment missing. The employee recalled finding his vehicle unlocked following an arrest warrant in May 2008, but did not recall if the radios were in the trunk at that time. Other than the one instance, the employee does not recall ever leaving or finding his vehicle unsecured.

Given the remote, geographical, statewide locations of the task force officers, CTTA Section task force officers randomly checked their equipment with no set standards for inspection other than the annual inventory process. Effective immediately, CTTA Section task force officers are required to account for their equipment each quarter and document the inventory on their CHP 100, Officer's Evaluation/Activity Summary form. Additionally, the supervisor will conduct periodic equipment inspections.

It is my opinion that the lost/stolen equipment was not a result of neglect and the employee's actions does not meet the conditions constituting cause for reimbursement as outlines in HPM 11.2, Materials Management, Chapter 16, Lost, Stolen, Damaged, or Destroyed State-Owned Equipment or Property/Reporting of Crimes on State-Owned or State-Leased Property, paragraph 9. The employee was given written direction by memorandum, informing him to properly secure and maintain his assigned equipment and should he lose, destroy, damage, or

State Security Division

Page 2

June 2, 2009

allow to be stolen, any equipment in the future, he may be required to reimburse the Department for the equipment. The employee was receptive to the order and we believe this will be an isolated incident. As a result, we are requesting your approval to remove the above items from the inventory assigned to the CTTA Section (081).

If you have any questions, please contact me or Assistant Chief John Rolin at (916) 843-3230.

A handwritten signature in dark ink, appearing to read "D. S. MacGregor". The signature is stylized with a large, sweeping "M" and a distinct "G".

D. S. MACGREGOR, Chief
